

PayMind

Money admin for everyone you share life with — done almost automatically.

An AI coordinator for everyday money: it reads bills, splits them fairly, settles through your own UPI app, and turns every transaction into budgets, forecasts and answers — for you, your partner, your family, your flat and your trips.

- Friends
- Couples
- Families
- Roommates
- Students
- Trips & events

PRINCIPLES

- AI proposes, people confirm**

Every split, category and action is shown before it's saved.
- A gateway, not a wallet**

Money moves only in the user's own UPI app. PayMind tracks and reconciles.
- Explain, don't accuse**

Bill flags and unusual spends come with the reason and a choice.
- Share the minimum**

Groups see what a shared bill needs — never personal spending.

The core loop

Press Play on Home, then follow a restaurant bill from photo to forecast

- 01

Snap

Photo, upload or e-bill — or auto-captured from UPI alerts.
- 02

Understand

Items, taxes, discounts and tip extracted; Bill Detective flags oddities.
- 03

Split

Fair split by item, quantity, share or rule — tap names to adjust.
- 04

Settle

Net balances across spaces; fewest possible payments.
- 05

Pay

Opens your UPI app with payee, amount and note filled.
- 06

Verify

Initiated → pending → completed, failed or confirmed by hand.
- 07

Track

Budgets, group balances and the timeline update themselves.
- 08

Analyze

Forecasts, patterns, nudges and answers learn from it.

Feature map

All 44 capabilities, each linked to the screen that shows it

Last 4 times here you tagged Dining and split with Rahul and Priya, so that's pre-filled.

Q BILL DETECTIVE · 2 TO REVIEW

Possible double entry: Fresh Lime Soda

"1 Fresh Lime Soda ₹90" is printed right after "3 Fresh Lime Soda". With 3 people at the table, 4 sodas may be a repeat. It also explains why the printed subtotal (₹1,960) is ₹90 above what the other items add up to.

Remove it

We had 4

Service charge added (5%)

Service charge is usually optional. If you didn't agree to it, you can ask for it to come off. We're not saying it's wrong – just worth a look.

Keep it

It was removed

Privacy & data

Your money data is yours. Every source is opt-in, and you can switch any of it off here.

PayMind never sees your UPI PIN or card details, and never moves money on its own.

CONNECTED SOURCES

UPI & bank alerts

Reads payment notifications to suggest expenses. Nothing else on your phone.

Bank balance

Via Account Aggregator consent, valid until Apr 2027. Used for safe-to-spend.

E-bills from email

Only messages from billers you pick.

Keep receipt photos

Off = we read the bill, then discard the image.

WHAT PEOPLE IN YOUR SPACES SEE

Items on shared bills

Needed to split fairly. They never see your personal expenses.

My notes on shared expenses

Private by default.

How I paid

e.g. "UPI" or "cash" on settlements.

AI

Use AI to read bills and answer questions

Off = manual entry and plain search only.

Learn from my corrections

Improves categories, merchants and split suggestions – for you only.

NOTIFICATIONS

Budget alerts

When a category is heading over.

Money nudges

Patterns and tips, at most once a day.

Settlement reminders

Who owes you, and what you owe.

Unusual activity

Always shown for review – never auto-blocked.

Quiet hours 10 PM – 8 AM

Hold everything except unusual activity.

WHAT PAYMIND HAS LEARNED FROM YOUR FIXES

Brew Street Café → Food · Café was Shopping

Tandoor House → split with Rahul, Priya 4 times

"UBERRIDES BLR" → Uber merchant

Couple items → 60 / 40, not 50 / 50 split rule

[Review or reset what it learned](#)

YOUR DATA

[Download everything \(CSV + receipts\)](#)

[Delete data from a date range](#)

[Delete my account](#)

Deleting your account removes your personal data. Shared expenses stay visible to the other people in them, with your name replaced by "Former member".
